ABOUT US

We are a Virtual-Reality-Tech-based design and contracting venture that aims at disrupting the way consumers design and execute the interiors of their spaces. At the core of the venture is a path-breaking technology product which gamifies the interior- designing experience for the consumer putting the control of interior-design in the hands of the consumer.

Flamingo is arguably one of India's Fastest Growing ventures with interests in Consulting, Technology, Design and Management of Residential and Commercial real estate. A venture by high-pedigree entrepreneurs from IIT, the venture looks at transforming the way brands find, design and manage their Residential and Commercial spaces. Flamingo currently has operations pan-India and with office in Gurgaon.

Flamingo presents India's only curated community of designers empowered to democratize design to make consumer lives easier and better. Customers get factory finish products and integrated furniture solutions. Flamingo empowers consumers to craft their own space by offering end to end solutions through professional approach and transparent installation

COMPANY GROWTH STORY

The company was formed in 2008. It started as a manufacturing enterprise with captive production capabilities in modular furniture, wall decor, loose seating, and home accents. It entered into Interior Turnkey Projects in 2008 and has grown 12X year on year and is geared up for expansion. Flamingo has successfully executed 1000+ projects covering 3 million square feet of customized, theme based Residential and commercial office space designed and/or built with an array of clients; Leading Start-ups, Co-working spaces, Real Estate Managed Service Providers.

The cutting edge technology, in-house manufacturing capabilities, tech-enabled project management & execution, and a huge team of qualified vendors - enables delivering the promise of all services with supreme quality, quick turn-around time, and cost benefits. It's on search for young enterprising candidates which can help create the next level of leadership for propelling it to a 1000 Cr company in the next 5 years.

THE EMBODIMENT OF PASSION

At Flamingo Interior we recognize that each project is unique and each client's needs are specific. Harmonizing space and form, quality and economy, expertise and creative vision, we bring together the versatility and depth you would expect from a leading service provider with the flexibility and responsiveness of a small, focused team to all our projects.

We believe that the quality of an environment – business, work, learning, recreational or living - directly influences the quality of life; and that architecture, design and interiors execution must be directed by the needs of people and the culture, climate and physical context of a place. We work closely with clients, architects, designers, project management consultants, users and the community to craft special places for working, learning, shopping, entertainment and living across India.
